The Institute was honored to be invited to work alongside leaders in the Blue Economy from Portugal since 2019 including site visit to Terceira, Azores in 2022 and hosting delegation to the Institute's Sustainability Summit in 2023.

The Stone Soup Leadership Institute's 19th Sustainability Summit is an excellent platform for exchanging experiences and knowledge. It provides an opportunity for communities to come together, learn from each other's successes and challenges, and collaborate on effective strategies for building a more sustainable future. Such gatherings foster innovation, encourage dialogue, and empower individuals and organizations to make informed choices that align with sustainable principles. Through knowledge sharing, networking, and collective action, we can achieve meaningful progress and create a brighter future for generations to come. May it inspire and empower participants to take meaningful action towards a sustainable and thriving planet.

Mayor Jose Meneses of Terceira, Azores
